Orange would like to emphasize the following points:

- This information refers to external sources which are subject to change. It should therefore be used for information purposes only. Orange cannot be held responsible for its accuracy;
- This information relates to (1) Orange SA 2G/3G networks closure dates for France Country and (2) Orange SA Roaming Partner's available 2G/3G networks closure dates for Countries outside France;
- For Countries outside France, Orange would like to underline and draw to your attention that the 2G/3G closures dates indicated in the file for each Country are the latest ones regarding all the Roaming Partners with whom Orange works for the delivering of 2G/3G in the concerned Country but as Orange doesn't work with all of them within your specific Countries mentioned in your IoT Contract, those 2G/3G closure dates may not correspond to your current IoT contractual situation. Also, we urge you to take the greatest precautions in the exploitation of those dates and absolutely invite you to contact your Sales team who will be able to establish with you the applicable 2G/3G closure dates in the Countries corresponding to your IoT contractual situation.

LEGENDS :

Info : Indicates if roaming partners have provided closure dates

- None : none of our roaming partners have communicated their closure dates.
- Partial : some, but not all, of our roaming partners have communicated their closure dates.
- All : all of our roaming partners have communicated their closure dates.

Status : Indicates if 2G & 3G are fully closed, partially closed or have planned closure dates

- Fully closed : all of our roaming partners have communicated about and have already closed their 2G/3G networks.
- Partially closed : some of our roaming partners having communicated their plan dates have already closed theirs 2G/3G networks.
- Planned : some or all of our roaming partners have planned their closure dates.
- Empty field : no information has been communicated.

Latest planned date : The date indicated is the latest date when the network will close.

LEGENDS :

Status : Indicates if 2G & 3G are fully closed, partially closed or have planned closure dates

- Partially closed : some of our roaming partners have closed theirs 2G/3G networks.

- Fully closed : all of our roaming partners have closed theirs 2G/3G networks.
- Closed : no service available in the country.
- Planned : our roaming partners have communicated their closure dates.
- Empty field : no information has been communicated.

Info : Indicates if roaming partners have provided closure dates

- None : none of our roaming partners have communicated their closure dates.
- Partial : some of our roaming partners have communicated their closure dates.
- Empty field in columns "info" : all of our roaming partners have communicated their closure dates.

Suggestion for status :

- Partially closed* : If you have identified those labels in the country where you're operating, we strongly recommend to contact our sales team.
- Fully closed* : If you have identified those labels in the country where you're operating, we strongly recommend to contact our sales team.
