- approvals, certifications, authorizations and/or licenses (e.g. export and import licenses, cryptographic authorizations, homologations, certificates of conformity with technical standards and marking, etc.).

1.2 Trade Controls

- 1.2.1 The Parties acknowledge and agree that the export, import, supply, use, re-export and/or transfer of Orange Deliverables or Services are or may be subject to Trade Control Rules and may require Permits from the relevant authorities. Each Party will comply with all applicable Trade Control Rules.
- 1.2.2 Customer will timely provide Orange with the complete and accurate information and documentation related to the end use, countries of destination, and the End Users of the Orange Deliverables and/or Services required for compliance with applicable Trade Control Rules. Customer will also ensure that End Users and consignees timely provide Orange with required information, certificates, reports and/or completed undertakings, including (without limitation) end-user or end-use undertakings forms (e.g. EU End-Use undertaking form, UK End-User Undertaking form, etc.). Customer warrants that all information, certificates, reports and undertaking forms provided to Orange are true and complete.
- 1.2.3 When Customer is responsible for obtaining a Permit from the relevant authorities (in particular, as the case may be, for import, use, re-export, or transfer of any Orange Deliverable and/or Service), Customer will obtain and maintain such Permit in its own name and at its own expense.
- 1.2.4 The provision and maintenance of all required Permits from the relevant authorities is a condition precedent to the supply by Orange of the Orange Deliverables or Services.
- 1.2.5 Customer will use and dispose of the Orange Deliverables and Services in accordance with the conditions set out in the applicable End User statements and with the conditions under applicable Permits, in accordance with the relevant Trade Controls Rules and other applicable laws and regulations.
- 1.2.6 Customer agrees not to export, import, re-export, or transfer (in-country), directly or indirectly, any Orange Deliverable or Service to any country, person, or entity to which such export, import, re-export, or transfer is controlled, restricted, or prohibited without first obtaining from the relevant authorities the Permits required by applicable Trade Control Rules. Customer agrees also to comply with any applicable reporting requirements to the relevant authorities. In addition and more specifically, as per respectively, new article 12g of EU regulation No 833/2014 (introduced by EU regulation 2023/2878) and new article 8g of Council Regulation (EU) 2024/1865 of 29 June 2024 (amending regulation N° 765/2006), Customer will not re-export any Orange Deliverable or Service (a) to Russia and/or Belarus and (b) for use in Russia and/or Belarus.
- 1.2.7 Customer will not, and it is not authorized to: (a) use, transfer, sell or otherwise provide (each as applicable) any Orange Deliverables or Services for or in relation to any weapons or military purposes; (b) transfer or supply any Orange Deliverables or Services to any military end user or to any person or entity who is known or suspected to be involved (whether directly or indirectly) in the manufacture of weapons or military use items; (c) give any military end user, or any person or entity who is known or suspected to be involved (whether directly or indirectly) in the manufacture of weapons or military use items, access to the Orange Deliverables or Services; and (d) give (whether directly or indirectly) any person or entity who is the target of an Economic Sanction, access to any Orange Deliverables or Services. Without limiting the foregoing, Customer agrees in particular (but not limited to) to comply with the restrictions or prohibitions on exports, re-exports, and transfers (in-country) pursuant to Part 744 of the EAR (i.e. in relation to nuclear, rocket systems and unmanned aerial vehicles, chemical or biological weapons and/or in relation to military end use and military end users).
- 1.2.8 Orange may suspend or terminate the supply of any Orange Deliverable and/or Service, upon notice and without liability to Customer or any End Users if, Orange determines that (a) Customer’s and/or any End User’s use, re-export, and/or transfer of such Orange Deliverable and/or Service violates any applicable Trade Control Rules and/or the terms and conditions of this Clause 1.2 (Trade Controls) or (b) providing any Orange Deliverable and/or Services to the Customer or End User would jeopardize Orange’s ability to comply with Trade Control Rules. Consequently, Customer and its Affiliates shall execute all documents and do all acts and things required to give effect to such suspension/termination (including, without limitation, ensuring any related contracts between the Parties’ Affiliates are also suspended/terminated).
- 1.2.9 This Clause 1.2 (Trade Controls) shall survive the expiration or termination of the term of the Agreement.

1.3 Supplies & Customs Formalities

Orange does not warrant that the Orange Deliverables will qualify for any preferential tariff, free trade agreement, or special program which may be in force between the exporting and importing countries.

- 1.3.1 **CPE.** Orange will be responsible for the delivery of the CPE to the Delivery Location where the corresponding Service is to be installed. If the Trade Control Rules, or other applicable laws or regulations, do not allow Orange to provision the CPE for the Service, then Customer will be solely responsible for procuring the necessary CPE-equivalent equipment (including hardware and software). If Orange is able to provide the CPE, then it will be responsible for making the CPE available at the Delivery Location agreed with Customer.

If Orange is not able to provide the CPE at the Delivery Location, Customer will be responsible for procuring a CPE-equivalent equipment from a third party and for the delivery of such equipment at the Delivery Location. Alternatively, if Orange is an authorized reseller of the CPE-equivalent equipment, Customer may source the CPE-equivalent equipment via the Orange product fulfillment service, and in such event – in addition to the product fulfillment terms and conditions set out in the Agreement – Clause 1.3.2 (Customer Equipment) below will apply to the domestic and international supply of the CPE-equivalent equipment.

1.3.2 Customer Equipment

- 1.3.2.1 **Domestic Supply.** Domestic supply of Customer Equipment means that: (a) the Customer Equipment orders will be transacted by Customer and Orange within the country where Orange is incorporated or otherwise domiciled, and (b) the Customer Equipment will be delivered to a Delivery Location that is located within such country. Orange will bill Customer all applicable taxes associated with the domestic supply of Customer Equipment. If all of the foregoing conditions are not met, then Clause 1.3.2.2 (International Supply) will apply to the supply of the Customer Equipment.

- 1.3.2.2 **International Supply.** For non-domestic supply of Customer Equipment, Orange will be responsible for shipping and exporting the Customer Equipment to the Delivery Locations in accordance with Clause 1.3.2.3 (Incoterms) below. Customer will appoint the entity that will act as its IOR (either Customer, its local Affiliate, or the consignee named by Customer in the importing country) and that will be responsible for the importation of the Customer Equipment. As importer of the Customer Equipment, Customer and its IOR (if different from Customer) will be solely responsible for fulfilling all administrative and import customs formalities required by the Trade Control Rules in the importing countries, including (without limitation) paying all applicable import duties and taxes, completing, and filing necessary undertakings forms with the appropriate authorities, and obtaining and maintaining all necessary import Permits.

- 1.3.2.3 **Incoterms.** Unless otherwise agreed between the Parties in writing, and excluding domestic supply of Customer Equipment described in Clause 1.3.2.1 (Domestic Supply) above, Orange will ship and export the Customer Equipment to the Delivery Locations in accordance with the Incoterm DAP named place designated by Customer in each Order. The use of or reference to "Incoterms" or similar sales terms applicable to the shipment and export of Customer Equipment by Orange in any quote, Order, or other related document shall not modify the provisions of the Agreement relative to the transfer of risk of loss with respect to the Customer Equipment.

1.4 Economic Sanctions

- 1.4.1 **Compliance with Economic Sanctions.** Generally, each Party agrees that during the term of the Agreement, neither itself nor any of its Associated Persons will be subject to Economic Sanctions. If and to the extent necessary to comply with any Economic Sanctions, a Party will be entitled, without liability to the other Party, to immediately suspend or terminate any provision or receipt of the affected Services or Orange Deliverables, notwithstanding anything to the contrary otherwise contained in this Agreement. In addition, if a Party violates any Economic Sanctions, the other Party may, without liability to the other Party, immediately terminate the Agreement, or suspend or terminate any provision or receipt of the affected Services or Orange Deliverables, notwithstanding anything to the contrary contained in the Agreement.

- 1.4.2 **Economic Sanctions for Cloud Service.** Customer shall not, and shall ensure that no individuals or entities, use or access (whether directly or indirectly) the Orange Cloud Services or any components of the Orange Technology if:

- (a) such person or entity (regardless of their location) is subject to Economic Sanctions or located in a country that is subject to Economic Sanctions; or
- (b) such entity is not located in a country that is subject to Economic Sanctions but such entity, however: (i) is organized under the laws of a country that is subject to Economic Sanctions, or (ii) any Associated Persons of such entity is subject to Economic Sanctions.

Customer shall implement, maintain, and enforce all necessary and appropriate measures and controls to ensure full compliance with applicable Economic Sanctions laws and regulations and this Clause 1.4.2. Upon Orange's request, Customer shall inform Orange of the measures and controls that it has taken to ensure compliance with applicable Economic Sanctions laws and regulations and this Clause 1.4.2.

Customer will immediately notify Orange if it, or any Associated Person, or any person or entity using or accessing the Cloud Services or the Orange Technology, is in violation of any applicable Economic Sanctions or this Clause 1.4.2, or if Customer has reason to believe that it will not be able to comply with any applicable Economic Sanctions or this Clause 1.4.2. In such events, Orange may either suspend or terminate the Services, or access to or use of the Services or the Orange Technology, immediately upon notice (such notice may be given to Customer by email or via electronic media such as the My Service Space portal).
