Orange Business Services positioned as a Leader in Gartner’s 2019 “Magic Quadrant for Network Services, Global

Date: 25 February 2019

Analysts: Neil Rickard, Bjarne Munch, Danellie Young

Pierre-Louis Biaggi
 Vice President Connectivity
 Business Unit, Orange
 Business Services

“For the 19th consecutive year*, Gartner has recognized Orange Business Services as a Leader in the latest Global Network Service Providers Magic Quadrant.

We are very pleased and honored to see that Gartner has improved our leadership position on both completeness of vision and ability to execute. We believe our highest position on ability to execute is clear recognition of our numerous customer references where we have successfully implemented our Flexible SD-WAN offering, which was awarded Best Enterprise Service at the WCA in London in November 2018. We are confident that Gartner recognizes our consistent strategy and vision towards end-to-end, orchestrated multi-cloud, multi-application and multi-access AI driven networks, which will automatically orchestrate networks based on predicted user demand and improve security, user satisfaction and business continuity.

By integrating the best-of-breed SD-WAN technologies with a high level of experienced professional services, Orange Flexible SD-WAN makes our customers ready to meet their ever increasing cloud, bandwidth, Internet and routing optimization demands effectively and securely, while improving application performance irrespective of whether it is delivered from the cloud or from the edge.”

*From GlobalOne in 2000, to Equant in 2002 to Orange Business Services since 2007
