

Project Management

knowledge, expertise
and **tools** for all your
ICT projects

“Our global infrastructure deployment, designed and deployed in just eight months, saved our business US\$5 million and completely exceeded our expectations.”

- comprehensive management of IT and telecom projects ensuring strong risk management and shorter time to ROI
- flexibility to be a stand-alone service or a complement to your other Orange solutions
- certified experts backed by a global project management community fluent in best practices and project management excellence
- extensive experience in coordinating all aspects of a project, focusing on your critical success factors
- frequent communications and rigorous management of third parties for smooth project operations
- award-winning methodology, tools and quality-control processes for a consistent global approach with clear visibility and reporting

**Business
Services**

we bring value

Each customer and project is unique. But inherent in that uniqueness is the opportunity for success. Our Project Managers are committed to achieving every critical success factor every time, thereby helping you achieve your business objectives.

From pre-contract to project initiation, planning, execution and closeout, you can rely on our people and efficient processes to reduce the costs and risks associated with project deployment. Close collaboration from the start ensures that project requirements are clearly defined and understood and that we build the best team as your partner to secure project success.

Effective communications throughout the entire project ensure that everything runs smoothly, and recurrent reports give clear and complete status of activities, progress, milestones, risks and finances.

we bring order

Synergy, our award-winning project management methodology, is based on the Project Management Institute's PMBOK Guide®, incorporating world-class best practices. By employing these consistent and repeatable professional practices, we can:

- establish specific procedures to enable timely, high-quality delivery within your defined budget
- ensure that efficiency, consistency and communications are optimized
- tailor our processes to meet your individual needs

we bring success

Our Project Management techniques have been proven again and again. Only Orange Business Services can provide:

- true global presence with knowledge of local customs and requirements, fluency in 22 languages and people on the ground on every continent
- experience and expertise proven with professional project management certifications, such as PMP® and PRINCE2®, to properly handle your unique challenges and constraints
- effective, global methods, procedures and best practices providing quality and cohesiveness in deliverables

good to know

Orange Business Services received the first-ever Best Project Management honor at the World Communication Awards and is the only provider to win this prestigious award twice in four years (2007 and 2010).
