

Bringing  
efficiency  
into our  
organization

Business  
Together  
Sharespace

## A complete business social network solution

**Create a single space for communicating, sharing information and collaborating, so everyone stays informed and can participate without the usual, time-consuming email ping pong.**

Business Together Sharespace enables teams inside and outside your company to share ideas, photos and videos and join discussion threads, polls and blogs from their computers, tablets and smartphones no matter where they are.

This managed, cloud-based solution is the latest addition to our Business Together portfolio, designed to increase productivity and foster innovation by improving the way people stay in touch and work together. In fact we are using this solution to benefit our 154,000 Orange employees and help them to communicate more effectively every day.

### **Better for business**

Improve processes, sales and customer service, and increase first-call resolution. Speed up decision-making to adapt faster to market changes.

### **Better for employees**

Engage and motivate your employees through an effective and interactive support model that promotes involvement to help everyone stay informed.

### **Better for your bottom line**

Reduce your costs with a software-as-a-service, per-user billing model and no capital investment.

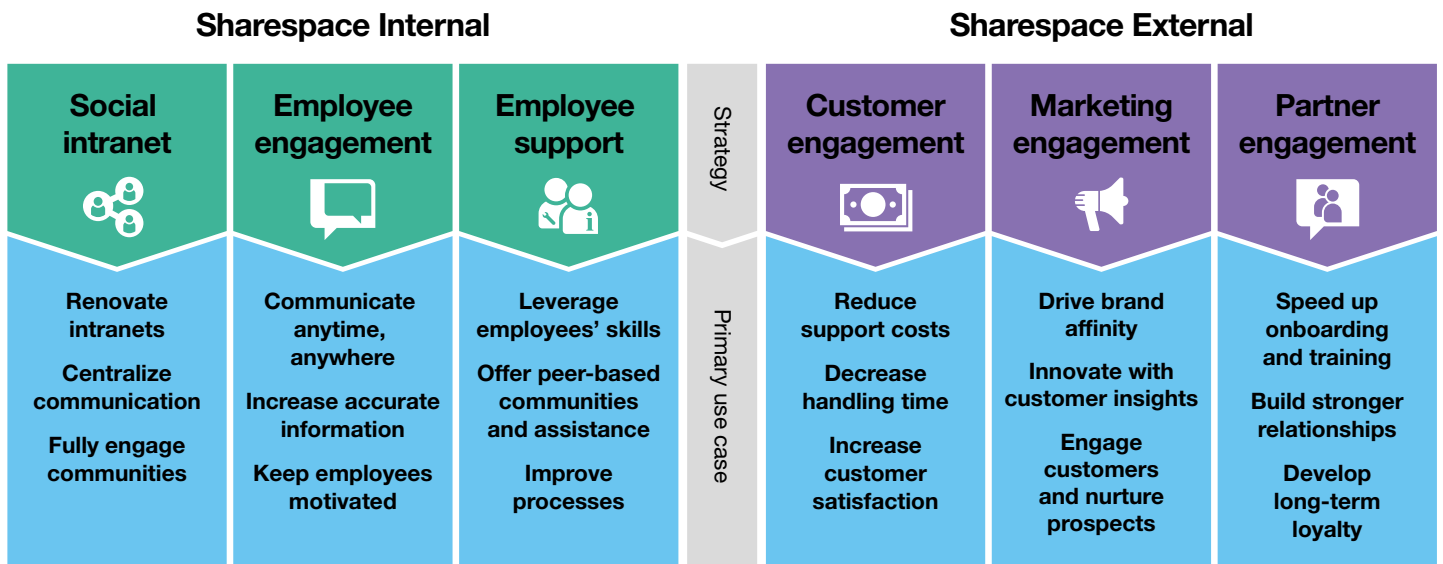

### **Better for security**

Safely collaborate with employees, partners and customers in a fully secured environment.

**Business  
Services**

# Tailored to your internal and external communities

## All in one place

### Communicate: engage your community with information that matters most

- Community places (portals)
- Activity streams
- News streams
- Blogs
- Ideas
- Polls
- Events
- Videos
- Direct messages

### Collaborate: bring people together to pool the best skills

- Discussions & questions
- Documents
- Uploaded files
- Groups and templates
- Structured outcomes
- Content engagement analytics
- Bookmarks

### Connect: access content from all devices, anytime, anywhere

- Mobile applications
- People profiles
- Social search
- Community manager engagement reports
- Personalized home view

...all via an open platform that easily integrates into third-party and business applications through an API.
