Enovacom, the Orange Business Services healthcare subsidiary launches the Enovacom Patient Link solution to speed up the digitalization of the patient journey

- **Launched today at the Santexpo trade show, Enovacom Patient Link is an application that healthcare establishments can use to strengthen the link with their patients during administrative and medical processes**
- **Through this launch, Enovacom reaffirms its new ambition to support healthcare establishments and patients to maximize time spent on care**

An expert in healthcare data and the leader of medical interoperability, Enovacom, the Orange Business Services healthcare subsidiary, has supported healthcare establishments with the digital transformation of their information systems since 2018.

Enovacom's new patient-centered solution, centralizes and leverages healthcare data securely in a single application. Enovacom Patient Link facilitates administrative formalities, the digital relationship with patients and can be used to manage all care pathways. Interoperable by nature, it enables the various healthcare establishments to securely share patient healthcare data before, during and after their admission.

The solution is now available in France and will be launched in additional countries in 2022.

An innovative digital solution for patient care

Healthcare establishments have an overall view of their activity, a 360° view of the patient, contextualized information, assistance with identity monitoring, and process automation in a user-friendly and secure solution.

The Enovacom Patient Link solution is based on the Enovacom healthcare data warehouse that structures and capitalizes on healthcare data for future use.

This new initiative strengthens Orange Business Services' strategic position as a trusted partner in the digital transformation of e-healthcare.

"As a leading player in e-healthcare, we believe that the patient-healthcare provider relationship should be digitalized in a considered and fair manner. The aim is to have a positive impact both on the daily lives of medical staff and on the healthcare experience for patients, while leveraging data. For Enovacom Patient Link, our teams worked with all healthcare

players to design an innovative and secure solution that best meets their uses," said Laurent Frigara, Deputy CEO of Enovacom.

About Orange Business Services

Orange Business Services is a network-native digital services company and the global enterprise division of the Orange Group. We connect, protect and innovate for the sustainable growth of businesses. Leveraging its connectivity and system integration expertise throughout the digital value chain, Orange Business Services is well placed to support global businesses in areas such as software-defined networks, multi-cloud services, Data and AI, smart mobility services, and cybersecurity. It securely accompanies enterprises across every stage of the data lifecycle end-to-end, from collection, transport, storage and processing to analysis and sharing. With companies thriving on innovation, Orange Business Services places its customers at the heart of an open collaborative ecosystem. This includes its 28,500 employees, the assets and expertise of the Orange Group, its technology and business partners, and a pool of finely selected start-ups. More than 3,000 multinational enterprises, as well as two million professionals, companies and local communities in France, put their trust in Orange Business Services.
