

# Is your organization facing any of these IT Asset Management **CHALLENGES?**

- Critical Network Vulnerabilities
- Lack of Dedicated Resources
- Contract Complexity and Pollution
- Lack of Renewal Readiness

The Orange Asset Lifecycle Management Solution (ALM) removes the **complexity, vulnerability** and **fear** surrounding Asset Management by proactively managing your entire network of hardware devices, software licenses and maintenance contracts with a customized offering of...

## EXPECTED OUTCOMES

Improved **COST OPTIMIZATION** (Reduction of people and contracts to manage)

Reduction in **RISK MANAGEMENT** (EOL/LDOS Visibility)

Value added **NETWORK VISIBILITY** (Consumption & Analytics)

**30%**  
IT COST SAVINGS

ITAM practices enable organizations to achieve an average of 30% cost savings in the first year, and a further 5% year-over-year savings in subsequent years.<sup>1</sup>

**23%**  
OF IT SOFTWARE IS UNUSED

On average, 23% of enterprises' IT software is unused or never deployed.<sup>2</sup>

**33%**  
INCREASE IN SATISFACTION

55% of ITAM system users rate that they are very satisfied with commercial ITAM systems, compared to 22% for home-grown (built in-house) ITAM systems.<sup>3</sup>
