

# Flexible SD-WAN

Welcome to the future

**Business  
Services**

## Application driven networks are the future

More than an 'out of the box' technology, Flexible SD-WAN from Orange delivers the expert service and support you require; providing the confidence, security, flexibility and reliability that partnering with us brings to your digital transformation journey.

Our approach, global reach and experience means that we can effectively guide you through your digital journey which ever stage you are at, in which ever direction you need to head and at what ever pace you need to travel.

## To discover the Orange Advantage

**Explore** [orange-business.com/en/solutions/connectivity](https://orange-business.com/en/solutions/connectivity)

### Benefits include

- ✓ SD-WAN solution expertise
- ✓ Native cloud connectivity
- ✓ Global network coverage and advanced operational skills
- ✓ Bringing existing and future networks together
- ✓ Best of breed security solutions

Because every business is unique we have the advantage of being able to provide a solution that is specific to your requirements.

**“We chose Orange Business Services because we see it as a prime partner with the ability to deliver seamless worldwide SD-WAN coverage with the highest degree of security standards – especially to protect against threats from the Internet, quality of service, local support and an attractive price-performance ratio.”**
