

# SD-WAN

## Discovery workshop

SD-WAN Discovery Workshop helps you to plan your network strategy, educates you about SDx & offers further advisory services. Our consultants together with you roadmap a journey of your future network according to your business needs.

### When to engage?

When thinking about your network strategy & transformation

When education on SDx technologies and advisory services are needed

When considering SDx & requiring a plan of your journey

### Together we will

Baseline your expectations, constraints and drivers for network transformation

Target your SDx doubts and challenges

Plan roadmap & qualify the resources

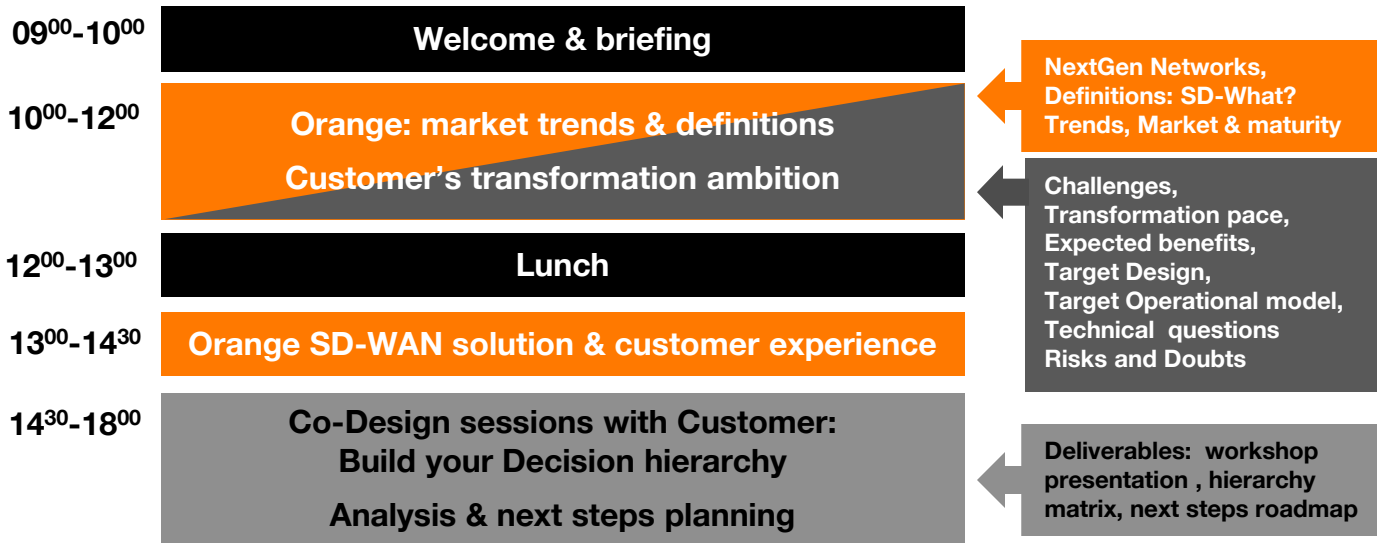

Co-design Decision Hierarchy Matrix & Digital Maturity Assessment

# Join our interactive 1 day workshop

Not billable

## Detailed agenda:

## Benefits

Get an overview of the latest technological trends & market

Identify business benefits from new technologies

Learn how SDx can change the way to design, implement and manage networks
